

Threats to Medicaid are a Threat to People with Disabilities

What you can say: Nearly two-thirds of WI Medicaid participants are adults with disabilities or children, many of whom have disabilities. Wisconsin's investment in Medicaid is essential to the health and independence of people with disabilities. Most people with disabilities cannot have all their needs met with private insurance. Please do not cut Wisconsin Medicaid programs. Please talk to stakeholders before making any changes.

Survival Coalition surveyed 1,500 people who use Medicaid and found:

60% use Medicaid transportation to access the community.

33% use Medicaid for supports to be able to work.

80% said without Medicaid they couldn't see their doctor, therapists or direct support providers.

43% said without Medicaid, they couldn't stay in their homes.

Medicaid Funds Over 20 Wisconsin Programs

BadgerCare **Family** **SSI Managed Care** **Katie Beckett**
